Making the Dead Dogs Dance: Proposals for Furry End-of Life Processes

Panel 3 (1 First Stamford Place, Stamford, CT 06902)

Our fandom's getting older, and so are we. In the last few years, several of furry's progenitor artists have died of old age, and just as many have left us unexpectedly. Additionally, furries encounter a unique set of challenges related to end of life planning. What's gonna happen to my fursuit? Should my Telegram friends come to my funeral? Patrick Totally will be drawing on research, interviews, and personal experience to lead a discussion on the taboo subject of furry death practices. This talk will include both practical advice, such as tips on writing a will, and speculative passages, such as proposals for furry burial rites. Cumulatively, this talk aims to destigmatize an aspect of our community that each of us will engage with one way or another. This talk will feature non-graphic discussions of real people who've died. If you do not want to hear about this, this panel is not for you.

Searching & Applying for Your Next Job

Panel 1 (1 First Stamford Place, Stamford, CT 06902)

Searching for your next job or career is a full-time job itself. In the digital age, it's not as easy as walking in and handing someone your resume. You have to write a resume with relevant KPIs, and in a format that an ATS won't reject so you're SOL. I have several years experience in recruiting, and I have the insider info to help you revive or start your job search with more confidence and, hopefully, some success. I'll talk about how to write your resume, cover letters, where and how to look for jobs, prepping for interviews, and some tips about accepting a job offer. After this panel, you will be able to write a compelling resume, weave your employment goals into a cover letter, understand how to format a resume for applicant tracking systems, know what kind of questions to ask during your interview, and be ready to accept your next job offer! Bring any questions you might have, and I'll answer them to the best of my ability. Looking for employment is daunting, and I want to make it less scary! Please note I am no expert on employment law, discrimination law, nor can I be held responsible for any consequences for following advice given here. I am here to share some insight as someone with relevant experience most job applicants don't have. Be careful with what you share with employers at any stage of the hiring process.
